ZEISS trail cameras:
Key facts at a glance

NEW: Premium trail cameras from ZEISS

With a company history spanning more than 175 years, German optics expert ZEISS is expanding its already extensive hunting and nature observation range to include trail cameras with numerous digital functions. The ZEISS Secacams 5 & 7 reliably provide precise information about which species are in which location at any given time. On the basis of this information, users can make an informed decision about whether to head out into nature, laying the groundwork for successful observation.

ZEISS quality thanks to:

Best-in-class image quality during the day and at night

Rapid installation thanks to mounting strap

Extensive **network coverage in Europe***

Reliable **app connectivity**

*In over 35 countries including Switzerland, Norway, and the UK. Complete list: **zeiss.com/trailcam**

The ZEISS Secacams 5 & 7 in comparison

Model	Dimensions	Display	Lens	Battery compartment	Imaging technology	Network coverage	Memory storage	Price

Unlock the camera' full potential – with the ZEISS Secacam App

The ZEISS trail cameras can only unleash their full potential in combination with the ZEISS Secacam App.
The app will have the following features at launch:

- Notification of new recordings & change of camera status
- View captured photos
- View camera status info (online status, signal strength, battery level, remaining space on the SD card)
- View the camera's location
- Share the cameras with contacts (and assign users to observer or operator mode)
- Deactivate cellular functionality
- Activate dark mode (convenient for use at dusk and dawn)

Immediately ready for use thanks to fast initial setup

After creating a profile in the ZEISS Secacam App, all you need to do is enter the activation code included in the box – and the camera is instantly connected to your account. Now just mount the trail camera at the desired location using one of the many mounting options, switch it on – and you're done.
